

## Introduction

---

**WARNING: The N-595 is intended only as an adjunct in patient assessment. It must be used in conjunction with clinical signs and symptoms.**

---

### Intended Use for the N-595

The N-595 pulse oximeter is indicated for the continuous non-invasive monitoring of functional oxygen saturation of arterial hemoglobin (SpO<sub>2</sub>) and pulse rate. The N-595 is intended for use with neonatal, pediatric, and adult patients during both no motion and motion conditions and for patients who are well or poorly perfused, in hospitals, hospital-type facilities, intra-hospital transport, and home environments. For prescription use only.

Nellcor Removed Indications for Motion from the DFUs of the N-600

## Introduction

---

**WARNING: The N-600 is intended only as an adjunct in patient assessment. It must be used in conjunction with clinical signs and symptoms.**
