Masimo Sensors

RD rainbow SET™

Featuring Masimo rainbow SET™ Technology and SET® Measure-through Motion and Low Perfusion™ Pulse Oximetry

- Flat sensor with smooth edges lies comfortably on a patient’s hand
- Lighter than traditional cable-based sensors and previous-generation sensors

- Quick and intuitive sensor-to-cable connection with tactile and audible feedback ensures proper connection
- Sensor graphics guide proper sensor application
Helping Hospitals Meet Green Initiatives

Lightweight design and sleek, recyclable packaging with RD rainbow SET:

1. 65% less material waste
2. 164% reduction in storage space
3. 126% less material waste
4. 128% reduction in storage space

Compared to rainbow® Disposable R1 25
Compared to rainbow ReSposable® R2 25

Sensor Application

Fold-over Style Sensors
- Offers secure digit application and intuitive sensor alignment

Wrap-around Style Sensors
- Easily removed and reapplied
- Suited for patients with long fingernails or finger deformities

Disposable Sensors

RD rainbow SET Adt
finger application

RD rainbow SET Pdt
finger application

RD rainbow SET Neo
adult finger application

RD rainbow SET Neo
neonatal foot application

RD rainbow SET Inf
finger application

RD rainbow SET Inf
thumb application
